DALIA

Authentic and natural, yet sophisticated and classy. That needn't be a contradiction, the Dalia collection promises a feeling of modern living and creates a luxurious ambience. The nonwoven wallcoverings in this collection exude elegance and finesse on any wall.

Expansive patterns, finely crafted textures, glamorous ornamentation and brush-like designs convey character and personality. The interplay between the light and the gleaming colours give the wall a different appearance with each glance.

Timeless and subtle colours for the home, such as cream, taupe and grey are complemented by blue accents. Metallic effects in silver and gold also exude an illustrious pride and give the wallpaper a very special touch.
