

CORNEA

90° corner protector on aluminium core

Description: 90° corner protector with contrast strip on aluminium core (Cornea as manufactured by Gerflor) comprising smooth and antibacterial 2.5 mm thick PVC profile achieving Bs2d0 fire rating with solid colour. A protective film is specified to minimise cleaning before acceptance. Wings are 60 mm wide (internal measurement) and snap-fix to continuous pre-drilled aluminium core. The central rounded bead forms a decorative and harmless contrast strip. Smooth PVC endcaps are provided for ends.

No heavy metals and no substance potentially subjected to any REACH restriction are used in its manufacture. The calcium-zinc thermal stabilisation process is used. The emission level of volatile substance in inside air has been tested according to ISO 16000 and is very low (A+) according to the french regulation (23 march 2011 nr 2011-321 Decree and 19 April 2011 Order). 100% of the product are recyclable.

Colour: selected by architects from manufacturer's standard range.

Installation sequence: snap-fixes to continuous pre-drilled aluminium core screwed to wall.
